

---

Streamers Life is one of the most popular Twitch chat client choices for streamers looking for something different to test the waters with. It is focused on providing a complete set of features to allow users to create an engaging and interactive Twitch experience. One of the biggest changes that Streamer's Life brings to the table and separates it from other blog posts, including our own, is that we're not talking about "the best" or "most used" chat clients on Twitch, we're focusing on this particular client — Streamer's Life — which we believe has all you need (and more). Streamer's Life is a free Twitch chat client that is completely open-source and has been growing in popularity. This article concentrates on the basic features which make Streamer's Life a viable choice for streamers looking to improve their user experience. The team provides a clean, streamlined interface along with a lot of options for connecting to Twitch communities and friends. It's important to keep in mind that Streamer's Life isn't just about streaming your gameplay — it's about interacting with your audience and taking the experience further than just streaming gameplay. It has all the features you need to create an engaging community that can talk with you and other community members during breaks, while you're offline, etc. If you're a "superstar" that can afford to pay a little money for a Twitch app, you might want to check out Streamer's Life as well. Streamer's Life by Flexetic Studios is licensed under the GNU General Public License Version 3 or later. Please see LICENSE file for more information. Streamers Life v1.1 - released 3/30/2016 From v1.0:

From v1.1:

From v2.0:
